

## MAKE RISK MANAGEMENT EDUCATION SIMPLE, PRACTICAL AND FUN

Students learn more effectively when they learn at their own pace and when they feel their education is relevant and useful.

### **Decision-Pro is an innovative on-line educational tool with three simple objectives:**

- 1) To make risk management education simple, practical and fun;
- 2) To harness the online learning environment to enable students to learn remotely and independently at their own pace;
- 3) To enable students to work collaboratively to solve real-life problems.

### **Risk management can be scary:**

- Risk management can be intimidating for many students.
- Too many books are full of technical jargon and complex statistics which can be difficult to understand.
- It's no surprise that many students don't put the principles into practice when they finish their risk management education.

### **It doesn't have to be like this!**

- By using new interactive technologies like Decision-Pro risk management education can be made easy, engaging and fun.
- By focussing on real-life decision-making rather than risk management we can show students why risk management is so important.

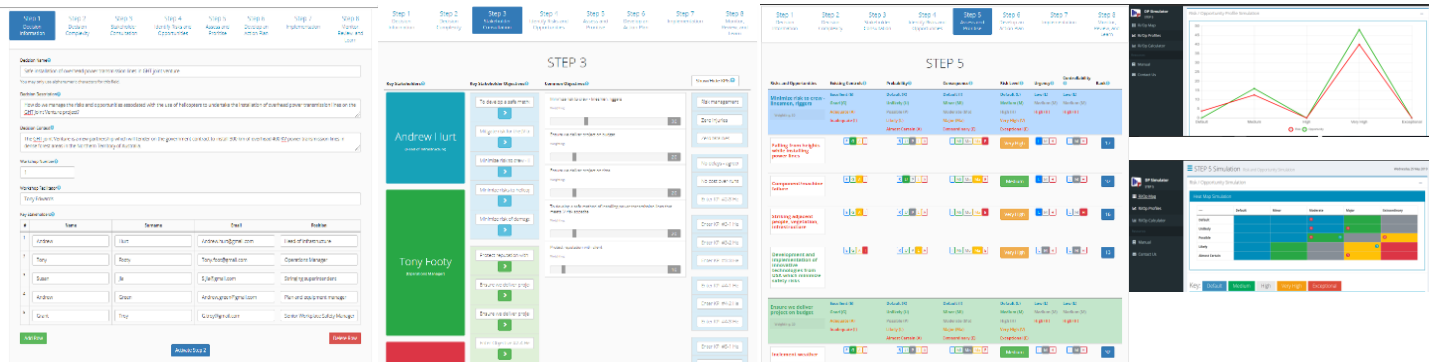

### **How does Decision-Pro do this?**

- Decision-Pro helps students solve a predetermined problem set by an educator.
- Students are guided systematically through a simple eight-step process.

- The on-line platform allows students to work collaboratively on the same problem, no matter where they are in the world.
- Students record their decisions on simple on-line templates which can be submitted on-line for assessment.

- The process has been tried, tested and refined over 20 years across a multitude of leading national and international universities, colleges and organisations, both large and small.

## What are Decision-Pro's underpinning principles?

- Simplicity – Decision-Pro is simple to use.
- Students don't need training to use it.
- It is intuitive, interactive and easy-to-follow.
- There is no risk jargon and the language is deliberately simple
- Self-paced learning – Decision-Pro is designed to help students learn at their own pace. It is packed full of easily accessible advice and information.
- Collaborative learning – While students can use Decision-Pro by working alone, Decision-Pro has the greatest benefits when used in group projects where students work together to solve a problem.
- Learning by doing – students learn by solving real life problems set by educators. This makes learning relevant, practical and fun.
- Easy for educators - Educators do not need to be experts in risk management and detailed guidance and advice is provided on how to use Decision-Pro.

## What is the outcome of the Decision-Pro process?

- Decision-Pro produces a detailed record of the students' deliberations and decisions which can be used for assessment purposes.
- Student assignments can be assessed on-line, allowing easy grading.
